

SolaRay Heating Panels Outperform Wall and Baseboard Heaters

Why SolaRay Panels Are the Smart Choice

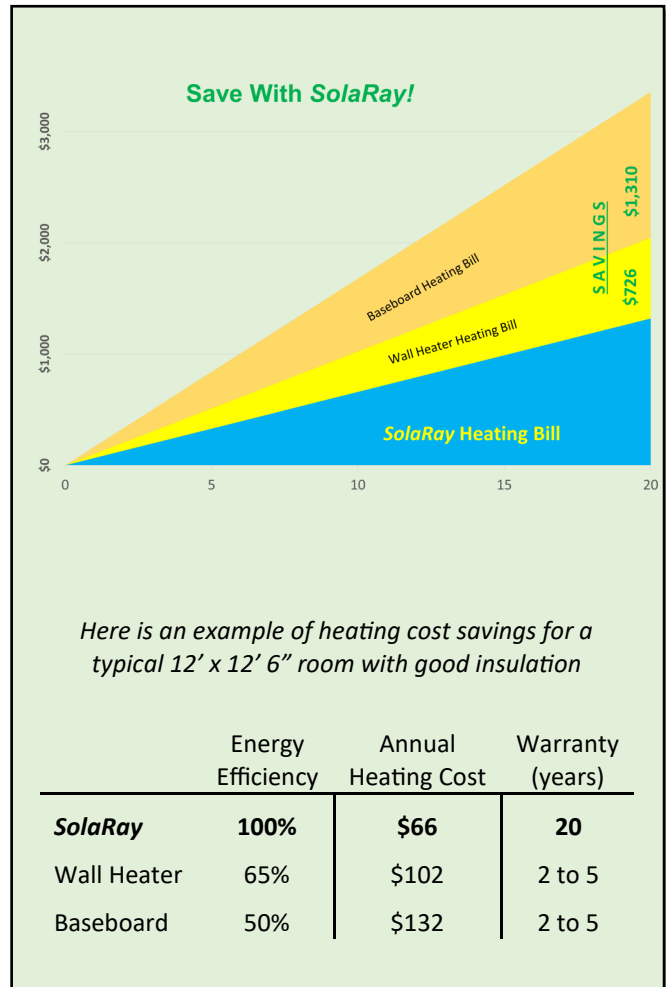

Simply put – *You Save Money.* Why? Because **SolaRay heating panels are 35% -50% more efficient than wall or baseboard heaters.** So your heating bill is lower and you save money every year. What’s more, *SolaRay* ceiling-mounted radiant heating panels provide an incredibly comfortable, gentle, sun-like heat that eliminates cold spots and drafts. And they are inexpensive, install as easily as a light fixture, require no maintenance, allow furniture placement anywhere unlike wall and baseboard heaters, and operate completely silently. So make the smart choice today!

SolaRay – Affordable AND Efficient

Wall and baseboard heaters are the most inexpensive heaters on the market today with a low initial cost. But why settle for the cheapest heaters on the market when you can have the best? While *SolaRay* panels are slightly more expensive, their energy savings quickly repays any higher product cost. **In fact, in just over 3 years, a *SolaRay* heater will pay for itself compared to a baseboard heater and in just 7**

SAVE \$700 - \$1,300 on your heating Bill with SolaRay heaters

SolaRay Panels Offer Homeowners These Additional Great Benefits

Zero Maintenance – No filters to change so you can enjoy hassle-free lifetime operation.

Lifetime Warranty – *SolaRay* heaters also have an incredible **40-year lifetime** according to the NAHB®

Easy to Install – No expensive ducting needed. Installation is as easy as installing a light fixture.

Ceiling Mounted – *SolaRay* panels allow you to place furniture anywhere unlike wall or baseboard heaters.

Zone Controllable – Customize the perfect heat for you. Once turned on, within minutes you feel warm.

Silent Operation – Perfect for bedrooms, *SolaRay* panels are silent unlike noisy wall heater fans that disturb sleep.

Safe & Clean – *SolaRay* panels are completely dust and allergen free unlike wall and baseboard heaters which circulate these pollutants in a room. Plus ceiling-mounted *SolaRay* panels are safe for kids and pets!
